Social Emotional Development: Relationships
Presenter: Usha Sampath, Early Education Consultant, CPIN Region 11
Social-Emotional Development in the TK Classroom: Relationships
Objectives

• Gain understanding of key concepts from the *California Preschool Learning Foundations, and the California Preschool Curriculum Framework, Volume 1*—Social-Emotional Development domain, Relationships Strand

• Use The Alignment of the California Preschool Learning Foundations with Key Early Education Resources that support building relationships

• Practice using the Preschool Learning Foundations (PLF) and Preschool Curriculum Framework (PCF) to intentionally plan developmentally appropriate, cultural, and inclusive strategies that promote the development of skills, knowledge, and behaviors related to social-emotional development
The TK Implementation Guide is a resource for California public school district administrators and teachers to support implementation of comprehensive TK programs.
CDE Publications and Resources that Support TK Implementation

- Preschool Learning Foundations
- California Common Core State Standards
- Health Education Content Standards for California Public Schools
- Preschool Curriculum Framework
- English Language Arts/English Language Development Framework
- DRDP Specific to TK and K
- Preschool Alignment Document
- Developmentally Appropriate Practice
- Preschool English Learners Guide
- Transitional Kindergarten Implementation Guide
Why Use the Preschool Learning Foundations for TK?

CA Law (EC 48000):

- Transitional Kindergarten is the first year of a two-year kindergarten program that uses a modified kindergarten curriculum that is age and developmentally appropriate.

- Transitional Kindergarten programs are intended, by legislative action, to be aligned to the California Preschool Learning Foundations developed by the California Department of Education.
Focal Point in TK Year

Social-Emotional Development
Focus: The Relationships Strand
Three Guiding Questions

What are the developmental progressions for the Relationships strand?

What are the developmentally appropriate strategies to support the development of relationships?

How can I incorporate these strategies into my existing TK classroom?
Resources to Support Relationships
For More Strategies…

- Preschool Curriculum Framework, Volume 1, page 80
- DAP, pages 252-253
- TK Guide, page 104
Family Partnerships

• Use family culture to create bridges between the program and the child’s home supporting children’s pride in their family and experience and understanding individual differences in background and viewpoint” (PCF, Vol. 1, p. 42).

• Books, photographs, artwork, music, and other classroom materials (and displays) should reflect the diversity of families in the groups. Relationships and abilities should be portrayed in the environment” (PCF, Vol. 1, p. 44).
Alignment Document

Close Relationships with Teachers and Caregivers

Second Substrand
Building Teacher-Child Relationships
Teachers Support Children When They…

• Develop a bond with the child
• Design activities to meet emotional needs.
• Encourage open expression of feelings
• Help develop positive feelings such as joy and satisfaction
• Are aware of the child’s unique emotional responses to various tasks and situations

(Sue Bredekamp and Carol Copple, DAP, p. 196)
Make Meaningful Connections

• “The TK teacher’s effort to connect one-on-one has a powerful effect on the developing student” (TK Guide [CDE], p. 16).

• “Teachers who spend quality time with students build meaningful connections that will shape future interactions and relationships for kindergarten and later grades” (TK Guide [CDE], p. 16).
Strategies to Integrate Throughout the Day

• Personally greet each student, every day.

• “Smile, high five, pat on the back” (TK Guide [CDE], p. 16).

• “Offer detailed commentary: ‘I noticed you are adding a new level to your structure’” (TK Guide [CDE], p. 16).

• “Ask open-ended questions: ‘What ideas do you have for this section? Will you add windows to your structure?’” (TK Guide [CDE], p. 16).

Behaviors of Toxic Stress

“The tendency to deny or ignore children’s emotional development most hurts those with special vulnerabilities, such as children with special needs and those growing up in poverty.” (Peth-Pierce and Raver & Knitzer as cited in DAP, p. 195).
Other Factors Connected to Toxic Stress

Credit: Robert Wood Johnson Foundation
Connection

“The more defiant and unlovable a child is, the more important it is that the teacher work to love and connect with the child.”

(Jenna Bilmes, Beyond Behavior Management, p. 247).
Friendship
Third Substrand
The Classroom Should Provide…

- Ample time and opportunities for peer interactions
- Space, materials, and encouragement for dramatic play
- Opportunities for cooperative work
- Problem solving opportunities with peers
- Opportunities for conversations and group discussions.

(Sue Bredekamp and Carol Copple, DAP, p. 199)
Transitional Kindergarten and Kindergarteners Tend to Choose Friends Who Are Similar in…

- Gender
- Age
- Socioeconomic Status
- Ethnicity
- Personality
- School performance

(Sue Bredekamp and Carol Copple, DAP, p. 194)
**Substrand Progression**

<table>

<tr>
<th>48 months</th>
<th>60 months</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>3.1</strong> Choose to play with one or two special peers whom they identify as friends. Children play with many peers but also seek the company of one or two specific children whom they identify as friends. Children are more cooperative and share more complex play with friends than with other children.</td>
<td><strong>3.1</strong> Friendships are more reciprocal, exclusive, and enduring. Children seek to share activities with special friends who, in return, seek their company. Friends act more positively toward each other but may also experience greater conflict. Children respond with enhanced efforts at conflict resolution.</td>
</tr>
</tbody>
</table>

PLF, Vol. 1, p. 20

What social skills might need additional focus as children approach 5 years old?
Friendships

“Teachers’ efforts to help less socially adept children develop and maintain friendships will do much to bring joy, confidence, and success into their lives.”

(Sue Bredekamp and Carol Copple, DAP, p. 195).
Friendship Books

Using Books to Support Social Emotional Development

Big Al
By Andrew Clements
Picture Book Studio, 1998

Big Al is a fish who wants to make friends! He tries everything he can think of to make friends, but nothing seems to work! The other fish are afraid of him because he is different. They all think that Big Al is very big and very scary! When Big Al comes to the rescue of the other fish when they get caught in a fisherman’s net, they realize what a great friend he really is! (Ages 4-8)

Examples of activities that can be used while reading Big Al and throughout the day to promote social and emotional development:

• While reading the story, ask the children how they would feel if they were Big Al. How would they feel if they really wanted to make friends with someone, but no matter what they tried—it didn’t work? Ask if they think Big Al is different? How is he different? Talk about how we are all different—some of us are tall/short, have blue eyes/brown eyes/green eyes, etc.—and just because we are different doesn’t mean we can’t be friends! Ask what they think they would do if Big Al tried to be their friend?
